2024 Chenin Blanc

The Vintage

The 2024 harvest reflected a season of extremes, with cooler spring temps, late frosts, and intense summer heat impacting vine development. Warm days and cool nights encouraged complexity, while above-average winter rainfall supported overall vine health. A hot July briefly slowed growth, but the combination of ample rain and heat ultimately produced smaller, more concentrated grapes. Though yields were lower than average, the resulting fruit displays exceptional quality, rich character, and expressive flavor profiles.

The Vineyard

Wilson Vineyards, located in the Clarksburg AVA, benefits from years of natural water flow leaving silt soil which is essential for producing exceptional Chenin Blanc. Although not certified, the vineyard is farmed using organic and sustainable practices.

The Winemaking Process

Blend:	100% Chenin Blanc	Brix:	20.6
pH:	3.2	Alcohol:	12.4
TA:	7.0g/L	Bottled:	April 30, 2025

Fermented and aged in stainless steel.

Tasting Notes

Our 2024 Chenin Blanc is bright, refreshing, and beautifully expressive. It opens with inviting aromas of green apple, honeysuckle, and citrus blossom. On the palate, crisp acidity is balanced by a hint of roundness, showcasing flavors of pear, lemon zest, and a touch of minerality. This vibrant white is both elegant and approachable—perfect for warm weather sipping or pairing with a variety of dishes.
